

WCTI
WORKERS' COMPENSATION
TRUST OF ILLINOIS

About WCTI

**Workers' Compensation
for Illinois Manufacturing
Companies**

About WCTI

WCTI has been helping Illinois manufacturing companies reduce their Workers' Compensation rates since 1981. While traditional carriers are cutting back on safety services, WCTI is working with their members to enhance their safety program and take it to the next level.

Benefits of Membership

- Owned by the Members
- Consistent Rates
- Personalized Safety Program
- Safety Training
- Aggressive Claims Management
- Networking Opportunities

Information Needed to Quote:

- Trended Expected Loss Ratio Less than 50%
- Approved Class Codes (Listed on our Website)
- Solid Safety Program/Culture
- Limited Chemical Exposure
- Minimal Occupational Disease Exposure
- No Hazardous Material Handling
- Group Health Insurance Coverage Required

The Workers' Compensation Trust of Illinois (WCTI) is a self-insured group of leading Illinois manufacturing companies whose members are committed to managing progressive safety programs and are actively involved in the fair and expedient managing of claims. For over 30 years, WCTI members have shared the philosophy that employees are their greatest asset and a safe workplace their highest priority. WCTI is the premier long term solution for their workers' compensation needs.

Testimonial:

Valley Fastener Group, LLC has been working with WCTI since 2007. Originally we became interested based on the initial savings over conventional workers' compensation insurance programs, but have come to find that they have so much more to offer. Historically, we had good loss control experience, but we were lacking a formal safety program. WCTI has individuals with practical knowledge that were able to assist in expanding the scope of our safety program. Through the help and guidance of the loss control committee, specifically Diane [Rigsbee] and Meredith [Wayant], we have developed a thorough safety program, increased employee awareness and created a safer work environment. Additionally, the "Train the Trainer" programs, ergonomic studies and monthly Risk Reminders are valuable tools to continue the education and awareness for all our employees.

We are fortunate to have partnered with WCTI and I would recommend them to other businesses looking to lower costs and improve safety.

David Spears, Plant Manager
Valley Fastener Group, LLC
